# CONNOR “KAWNAR” MCFARLAND

Television and Film Composer

## PROFILE

I'm a driven, self taught, Music Composer living in Colorado. I first started as a rapper in Oklahoma (yes really) and quickly discovered music was my life. I went on to play shows and festivals in front of thousands, garnering local awards and accolades. Over the years I discovered my infatuation with the creation of the song, more than the performing of it. I was asked to be the lead composer for the Television show “Osiyo”, which I have worked on more than 30 episodes of, over 5 years, which allowed me to amass 5 Emmy nominations for that work.

I love the collaboration with film makers that scoring provides, I'm honored to be able to see someone else's vision, and bring it to life.
