

GAFFER

JAKE BASNETT

PROFILE

Experienced and dedicated Gaffer with seven years of experience in the film industry. Adept at team management and coordination on sets of all size. Passionate about lighting and the moving image. Strong ability to problem solve and communicate. Proficient with large distro runs and complicated camera rigs. Gnarly curve ball, decent golf swing.

I grew up in Oklahoma. After high school, I moved to Los Angeles for college. There, I fell in love with light. In October of 2020, I moved back to Oklahoma to bring my experience and expertise to the sooner state.
