

# Josh Bivens

Camera and Drone Operator

## STORY:

I'm a photographer and video creator from OKC. Collaborating with local artists, production teams, and feature films, I help tell others' stories through my technical knowledge of the camera and light. Moving or still, I look for the best way to frame the world and compose a story through images.. Creating behind-the-scenes content is one of my favorite ways to contribute. I am also FAA drone certified and always looking for a place to take flight.

## WORK EXPERIENCE
