

Sun Deep

ARTIST

Bio

Sun Deep, an India-born artist based in Oklahoma, epitomizes the fusion of cultures through his captivating music. By day, he is a dedicated geophysicist, but by night, he transforms into a musical virtuoso, blending his scientific precision with artistic creativity. His compositions are a reflection of his diverse experiences, blending traditional Indian melodies with contemporary Western elements to create a sound that is uniquely his own. Through his music, Sun Deep seeks to bridge the gap between cultures, transcending boundaries and bringing people together through the universal language of music.

"Rapper, singer, producer, and experimenter Sun Deep understands the effectiveness of soulful minimalism arguably better than anyone else in OKC..." - **Brett Fieldcamp (Freepress OKC)**
