---

I have participated in many volunteer opportunities and have had a great education through the Piedmont Public School system. I have plenty of technological skills that would be useful for a wide variety of different occupations. My goal for the future is to write and work on film studios and sets. I would also like to take part in animated projects. I'm an artist/graphic designer with an intense interest in the study of cinema and filmmaking. With Canadian Valley Technology Center, I have a leg up on many other folks looking for a job in this industry. I work well with others and am very creative. I try to take the lead in the projects I participate in and I always give it my all with the resources I am given. I'm very available and flexible and am happy to be around whenever I'm needed.

---

## **EXPERIENCE**
